P R E F A C E.

*To Teachers of Music, Choristers, Singers, and all interested in American Church Music.*

We respectfully solicit for "THE SHAWM" a careful examination, with reference particularly to the following features, viz.:

COMPLETENESS OF THE WORK. It comprises the greatest variety of regular Metrical tunes—Long, Common, and Short, 7s, and 8s & 7s—of any similar work within our knowledge. It contains also, tunes adapted to more than ONE HUNDRED DIFFERENT PECULIAR METERS. We believe there is no hymn in use in any religious denomination, but may be here adapted to an appropriate tune. In this undertaking, we think we have performed an acceptable service to the chorister.

CHORISTER'S INDEX. To make this part of our work still more complete, we have arranged a comprehensive and very copious Chorister's Index, in which reference is made to tunes adapted to the peculiar hymns above alluded to.

HYMN BOOKS USED BY DIFFERENT DENOMINATIONS. In this adaptation of hymns to tunes, we have carefully examined all the hymn books used by the various religious denominations of our country.

PECULIAR METERS OF THE METHODIST HYMNS. As the collection of hymns used by the Methodist churches North, are differently marked from those of other denominations, we have made a special Index, (see page 2,) for that work, in which all the meters, from the first to the thirty-third, are adapted, and one or two tunes for each suggested.

OLD TUNES. These have been selected with reference to their known popularity and usefulness, whether in the lecture room or the social prayer meeting, revival occasions, the family circle, or the great congregation.

THE NEW TUNES have been composed, compiled, selected, or arranged with particular reference to their availability and adaptedness to the wants of the CHOIR and the SINGING SCHOOL.

GREAT VARIETY OF BOTH OLD AND NEW. By our new and beautiful music type, and by slightly enlarging the size of the page, we have been able to insert two new tunes, and one old tune, upon almost every page of the Metrical tunes, preserving, at the same time, clearness and distinctness in the music.

ANTHEMS AND CHANTS, AND SHORT SET PIECES FOR ALL OCCASIONS, such as the opening and closing of Public Worship, Missionary Meetings, Installation, Thanksgiving, National Festivals, Dedication, Temperance Meetings, Sabbath-School Anniversaries, &c., &c., will be found.

THE NEW CANTATA of "Daniel," we believe will prove acceptable and popular for

Concert purposes. Many of the choruses are also suitable for occasions of worship (See Index to Anthems.)

THE SINGING CLASS, as our elementary department is called, has engaged our special attention, while we have had in view continually the brief space of time usually allotted to the study of the Elementary in Adult Singing Schools. We confidently believe, that the novel method of so arranging the elementary studies, as to intertwine the practical with the theoretical from the very first lesson, combining simplicity and progressiveness with pleasure in study, will meet the approbation of all. The introduction of easy Gleees and Part-Songs in the different keys, is a feature which will help to keep in active exercise the interest of a class.

ASSISTANCE FROM ABROAD we have enjoyed by foreign correspondence, and by our access to the best German and English composers. But we value none the less our

HOME DEPARTMENT. In this we have had the valuable aid of many of our best American writers and teachers. We believe, that a book of Church Music to be extensively useful in this country, should be mainly AMERICAN in its leading characteristics, though it may and should contain much that is foreign. By a special arrangement with Mr. LOWELL MASON, we are enabled to present a large number of his most popular and choice tunes. This, we believe, will very greatly enhance the usefulness of THE SHAWM, as a standard collection for Choirs. Mr. M. has also kindly sent us many valuable new tunes.

Our esteemed friend and assistant, Mr. THOMAS HASTINGS, has, as will be seen by his many and beautiful compositions, rendered us valuable aid in our editorial labor. To Mr. TIMOTHY B. MASON, the Western pioneer in Church Music, we are indebted for many beautiful WESTERN TUNES, bearing his name as author or arranger.

We are indebted also to many other American and to several German composers for valuable contributions, some of which appear, while others were received too late for insertion in this work. The new tunes with no author's name attached, may be ascribed to one of the editors.

**DIVISION OF LABOR.** In the division of our editorial labor, it has fallen to the lot of Mr. BRADBURY to take the principal charge of the Tunes, and the arrangement of the Elements, while Mr. ROOR has devoted himself more particularly to the preparation of the Cantata. By endeavoring to keep continually in mind the wants of our Choirs, Singing Schools, and Churches, throughout the land, we think we have now furnished what our title page boldly sets forth, a "LIBRARY OF CHURCH MUSIC," accessible and available to all who sing the songs of Zion.

# THE SINGING CLASS.

## LESSON 1.

### PRACTICAL EXERCISES, OR FIRST STEPS IN SINGING BY NOTE.

TO THE TEACHER.—This chapter may be read and sung at the first lesson by almost any class of beginners with comparative ease, leaving ample time for the practice of a few "Old tunes." If "Bradbury's Pocket Cards" are used, let No. 1 be given out during (or previous to) this lesson. Most of the time usually devoted in the first six lessons to learning the names and uses of the different musical signs will be saved to the class by the use of the Cards.

#### THE SCALE.

##### 1. Ascending.

##### Descending.

§ 1. The scale represents, by characters called notes, a series of eight musical sounds. To learn to sing these sounds correctly is the first step in the art of reading music. The different degrees of the scale are numbered from 1 to 8, as seen above.

§ 2. The first sound we call ONE, the next TWO, the next THREE, &c.

*Pupils will repeat the numerals of the scale ascending and descending, then practice with the numerals.*

§ 3. Beside the numerals, which are not always convenient for singing, we employ in learning to sing, the following syllables:

Written, Do, Re, Mi, Fa, Sol, La, Si, Do.

Pronounced, *Do, Ray, Mee, Fah,\* Sole, Lah\*, See, Do.*

§ 4. The notes representing the scale, and other musical exercises and tunes, are printed or written upon and between five parallel lines, called a STAFF.

\* A as in far.

#### THE SCALE UPON THE STAFF.

##### 2. Sing to the syllables.

#### POSITION OR PLACE OF THE SCALE.

§ 5. The scale, as presented above, begins upon the lowest (first) line of the staff. It may begin upon any one, or between the lines; hence, as will be seen, the scale may be changed to any position—higher or lower—upon the staff. Rules regulating all such changes will be presented in their proper place. Let each member of the class now make himself familiar with the syllables and *sounds* of the scale. (See scales below.)

#### THE SCALE IN ANOTHER POSITION UPON THE STAFF. (HIGHER.)

##### 3. Sing with the syllables, also with "La."

#### THE SCALE IN ANOTHER POSITION UPON THE STAFF. (LOWER.)

##### 4. Sing to the words.

NOTE.—In the above we have added a short line, in order to write the scale still lower

**TO THE TEACHER.**—In the following Exercises the teacher will give the pitch generally, as indicated by the numeral 1, (supposing the clef and signature to be there,) simply saying to the class, "Now *Do* (1) is on the lowest (or first) line." "Now between the first and second lines," &c. By thus frequently changing the position of the scale, the beginner learns from the first to regard the intervals in their relative position, irrespective of any given place upon the staff. This we deem of much importance, in teaching the art of reading music *vocally*. (In learning to play upon an instrument the case is different.) After getting some practical idea of what reading music is—by the preparatory exercises that follow—the pupil will easily understand and appreciate the importance of *fixed sounds* as indicated by the letters and clefs. "ONE THING AT A TIME," must be the successful teacher's motto.

### 5. Ascending and descending One Degree of the scale.

1 2 1 2 2 1 2 2 1 2 1 2 2 2 1.  
*Do, re, do, re, re, do, re, re, do, re, do, re, re, re, do.*  
 Here we meet with joy to- geth-er, Here our cheer-ful songs to raise.  
 O how sweet the hour of sing-ing, Hearts and voi-ces join'd in praise.

### 6. Ascending and descending Two Degrees of the scale. *Sing backwards.*

*Do, re, mi, mi, re, do, re, do, re, mi, mi.*  
 Blythe is the hour that we spend here in sing-ing.  
 .gni - gnir yl - i - reehc si cis - um teews ,cis - uM

### 7. Three Degrees.

1 2 3 4 4 3 2 1.  
*Do, re, mi, fa, fa, mi, re, do.*  
 { Now as - - cend - ing, now de - - scend - ing, }

### 8. Four Degrees.

1 2 3 4 5 5 5 5 4 3 2 1 1 1.  
*Do, re, mi, fa, sol, sol, sol, sol, fa, mi, re, do, do, do.*  
 Let us make our voi-ces ring; Now's the time to learn to sing.

\* The dots show that the music is to be sung twice.—They are called a **REPEAT**.

### 9. Five Degrees.

1 2 3 4 5 6 5 5 6 5 6 5 4 3 2 1 1 2 1 1.  
*Ma-ny voi-ces seem to say, seem to say, "Merry singers here's the way, here's the way."*

### 10. Six and seven Degrees.

*Do, re, mi, fa, sol, la, si, do, si, la, sol, fa, mi, re, do.*  
 Hap-py days are glid-ing o'er us, Life is fresh and earth is fair;  
 Sor-row swift-ly flies be-fore us, And we gai-ly laugh at care.

### 11. TUNE. *Do* (1) on the First line.

1 2 3 2 3 4 5 5 5 6 5 6 7 8  
*Do, re, mi, re, mi, fa, sol, sol, sol, la, sol, la, si, do.*  
 Let us, with a joy-ful mind, Praise the Lord, for he is kind;

*do, si, la, sol, fa, mi, re, mi, fa, sol, fa, mi, re, do.*  
 For his mer-cies shall en-dure, Ev-er faith-ful, ev-er sure.

### 12. TUNE. *Do* (One) below the first line.—Sing fast.

*Do, do, do, do, re, re, re, mi, re, do, re, re, re, mi, fa, sol, la, si, do, do, si, si, do, do,*  
 1. We sons of the mountains are happy and free, sir, No bird of the air is more cheerful than we, sir,  
 2. At morn while the valley is shrouded in night, sir, We bask on the mountains in heav'n's own light sir,  
*do, do, si, la, sol, sol, sol, la, sol, fa, mi, mi, re, mi, fa, sol, sol, fa, mi, re, mi, re, do, do.*  
 Come here all ye townsmen, be honest and tell, sirs, If men in the ci-ties more happily dwell, sirs.  
 At night when our kine are all safe and at peace, sirs, We seek our own fern beds and set at our ease, sirs.

## LESSON II.

## ANALYSIS OF MUSICAL SOUNDS, &amp;c.

§ 1 A musical sound or *tone* may be

- |                    |                                     |            |
|--------------------|-------------------------------------|------------|
| 1. LONG, or SHORT. | § 2. <i>Properties of sounds.</i> — | 1. LENGTH. |
| 2. HIGH, or LOW.   | A sound has therefore three         | 2. PITCH.  |
| 3. SOFT, or LOUD.  | essential qualities, viz.:          | 3. POWER,  |

§ 3. *Departments in the Elements of Music.*—As there are three distinctions existing in the nature of musical sounds, and as they have three essential properties, so there are three corresponding departments in the elements of music:

1. RHYTHMICS, treating of the *length* of sounds.
2. MELODICS, treating of the *pitch* of sounds.
3. DYNAMICS, treating of the *power* of sounds.

§ 4 *General view* :—

<i>Distinctions.</i>	<i>Properties.</i>	<i>Departments.</i>
LONG, or SHORT.	LENGTH.	RHYTHMICS.
HIGH, or LOW.	PITCH.	MELODICS.
SOFT, or LOUD.	POWER.	DYNAMICS.

## RHYTHMICS.

DIVISIONS OF TIME. MEASURES. PARTS OF MEASURES. COUNTING AND BEATING TIME. ACCENT.

§ 1. The length of sounds is measured by a division of time into equal portions. This may be indicated or illustrated, by counting equally, thus: *one, two ; one, two.*

§ 2. The portions into which time is thus divided are called MEASURES. The perpendicular lines are called BARS.

§ 3. Measures are divided into smaller portions, called PARTS of MEASURES.

§ 4. When the counts are made as above represented, the measures are supposed to be divided into *two parts*, the first being indicated by the count *one*, and the second part by *two*.

§ 5. Measures and parts of measures, may be indicated not only by counting (to the ear), but also by motions of the hand (to the eye), called BEATS, or BEATING THE TIME.

§ 6. In beating time, a *downward* motion of the hand is usually made for the first part of a measure, and an *upward* motion for the second part

§ 7. The first part of a measure should be *accented*, the second *unaccented*

§ 8. Examine, count, and sing the following.

## SONG OF PRAISE.

## 13. Measures of Two Beats,

Down.	Up.	D.	U.	D.	U.	D.	U.	D.	U.	D.	U.	D.	U.	D.	U.	D.	U.

NOTE TO THE TEACHER.—“*One thing at a time*” must be kept in mind. Training the voice to follow written characters representing different degrees of pitch is now the principal business in hand. We have always found it much less difficult for the pupil to understand the subject of Rhythmics than that of Melodics, in Musical Notation. How printed characters placed upon different degrees of the staff can so indicate the exact pitch of sounds as to be a sure guide to the voice, is always to the beginner a mystery, and the mystery can only be solved by systematic and persevering practice. Who ever learned to read music by studying the Elements or “Rules?” or who ever learned to read by being *told how*? Little theory and much practice is best. We have often wished to whisper in the ears of some of our excellent teachers—“*Less talk and more sing,*” and have, perhaps, often needed the same gentle hint ourselves.

## NOTES. RESTS.

§ 9. The length of sounds is represented by written characters called NOTES. Notes are signs, representing to the eye the comparative length or duration of sounds.

## NOTES.

§ 10. Six different kinds of notes are in general use, viz. :—

The Whole Note, or Semibreve.	Half Note, or Minim.	Quarter Note, or Crotchd.	Eighth Note, or Quaver.	Sixteenth Note, or Semiquaver.	Thirty-second Note, or Demisemi-quaver

§ 11. Pupils should examine the preceding notes until they are quite familiar with their form and shape.

Name the following notes:

§ 12. The **WHOLE NOTE** represents a *long* sound.

§ 13. The **HALF NOTE** represents a sound *half* as long as a Whole Note.

§ 14. The **QUARTER NOTE** represents a sound a *quarter* as long as a Whole Note.

§ 15. The **EIGHTH NOTE** represents a sound one *eighth* as long as a Whole Note, &c.

§ 16. Name the notes in any of the tunes in the body of this work.

TO THE TEACHER.—Question on the proportionate duration of sounds as represented by the notes; as, for example, How many half notes, think you, should be performed in the time of one whole note? How many quarters? Eighths? &c. If one whole note is sung, how many sounds are made? *Ans. ONE.* If two half notes are sung, how many sounds are made? *Ans. TWO.* What then is the difference between two half notes and one whole note? Most pupils will understand the relative proportions of the notes as soon as they are able to distinguish one from another.

§ 17. Signs indicating silence are used in music. They are called

RESTS.

§ 18. Their names and proportions are the same as the notes.

QUESTIONS.—Upon the rests. Name them in different tunes.

§ 19. Name and describe the above—as, one whole note is equal to two halves, four quarters, &c., &c.

## LESSON III.

MELODY OR MELODICS.

EXERCISES IN SKIPS.

NOTE.—If Bradbury's Cards are used, give out No. 2.

§ 1. Sounds proceed by Skips as well as by Degrees. The Skips after a little practice, are easily measured by the eye.

14. Skip of a Third.

Come and skip this *Third* with me.

15. Skip of a Fourth.

Skip a *Fourth* now, no more, no more.

16. Skip of a Fifth.

Af - ter wis - dom let us strive, let us strive.

17. Thirds—Fourths, Fifths—Sixths.

Do, re, mi, do, mi, do, re, mi, fa, do, fa, do, re, mi, fa, sol, do, sol, do.

Do, la, do, la, do, fa, do, fa, do, sol, do, sol, do.

18. Tune with skips—**ONE** below the first line **TWO PART** (Double) measure.

Do, mi, re, mi, fa, sol, fa, mi, la, sol, fa, mi, re, mi,  
1. I love the Lord, he heard my cries, And pit - ied eve - ry groan;

sol, la, si, do, si, la, la, sol, mi, fa, mi, re, re, do.  
Long as I live, when trou - bles rise, I'll has - ten to his throne.

## 19. TUNE. ONE between the first and second lines. (First space.)

Do, do, si, la, sol, do, re, mi, mi, mi mi, re, do, fa, mi, re,  
1. With one con-sent let all the earth To God their cheerful voi-ces raise;

Do, re, mi, re, do, la, si, do, sol, mi, do, re, fa, mi, re, do.  
Glad hom-age pay, with aw-ful mirth, And sing be-fore him songs of praise.

## 20. A plain Melody or tune. ONE (Do) on the first space.

1 3 3 4 4 3 2 1 3 5 5 4 3 2 3 2  
Do, mi, mi, fa, fa, mi, re, do, mi, sol, sol, fa, mi, re, mi, re,

2 3 1 4 3 2 2 3 2 3 5 4 3 2 1.  
re, mi, do, fa, mi, re, re, mi, re, mi, sol, fa, mi, re, do.

## 21. The same Melody as No. 20. Rhythm altered by substituting quarter for half notes in several places.

Lord, in the morn-ing thou shalt hear My voice as-cend-ing high;

To thee will I di-rect my prayer, To thee... lift up mine eye.

QUESTION.—How many eighths should be sung in the time of one quarter?

## 22. TUNE. One (Do) on the first line.

Do, do, re, mi, re, mi, fa, mi, re, mi, mi, mi, fa, mi, re, do, si, do, re,  
Happy the man, whose cau-tious feet Shun the broad way that sin-ners go;

\* When two or more eighth (or sixteenth) notes are joined by the hook, they are to be sung to one syllable of the poetry.

do, do, re, mi, re, mi, fa, mi, re, mi, mi, mi, re, do, re, mi, re, do.  
Who hates the place where a - theists meet, And fears to talk as scof-fers do.

QUESTION.—How many quarter notes should be sung to the time of one half note?

## 23. TUNE. One (Do) on the second line.

1. A - wake my soul to sound his praise! A - wake, my harp, to sing!  
2. A - mong the peo - ple of his care, And thro' the na - tions round,

Join all my pow'rs the song to raise, And morn-ing in - cense bring.  
Glad songs of praise will I pre-pare, And there his name re - sound.

## LESSON IV.

## RHYTHMICAL CHARACTERS RESUMED.

§ 1. In a former chapter we considered the length of sounds as indicated by the different forms of the notes, &c., but the time of a piece of music may be slower or faster without interfering with *relative* proportions.

§ 2. When, for example, we apply four beats to the whole note, we must allow two beats to the half note, and one beat to the quarter note, &c.; but when we apply only two beats to the whole note, we must allow but one beat to the half note, &c.

§ 3. There may be various kinds of notes in the measures, but there must be an equal *amount* in every measure; that is, one measure must contain as much in the aggregate as another.\*

Examine, also, tunes in the body of the work. Question on the relative duration of the notes, &c.

§ 4. Large figures placed at the beginning of a piece of music denote the fractional proportion of the whole note, thus, for example,  $\frac{4}{4}$  shows

\* The first and last measures of a piece of music are sometimes exceptions to this rule.

that four quarter notes, or an amount equivalent to them, fill a measure ;  $\frac{3}{4}$  shows that three quarters, or their equivalent, fill the measure ;  $\frac{2}{2}$  that TWO HALF NOTES fill the measure, &c., &c.

§ 5. To aid in computing time, Maelzel, the celebrated French mechanist, invented an instrument called a Metronome. It has a pendulum, which swings and ticks at regular intervals of time, like that of a clock. (The instrument is, in fact, a clock turned upside down, but without dial plate or hands.) If the weight be moved upwards, the pendulum will swing slower, if downwards, faster ; but put the weight where you will, its motions will always be in *equal time* ; never hurrying, never dragging.

§ 6. In the performance of a piece of music, the time should be computed with the same accuracy and regularity as by a Metronome or a clock.

#### VARIETIES OF TIME, AND MOTIONS OF THE HAND IN BEATING.

§ 7. There are in general use FOUR KINDS of Measures, and each kind has THREE VARIETIES.

##### DOUBLE MEASURE.

has two beats ; the upper figure is  $\frac{2}{2}$ . The varieties are  $\frac{2}{2}$ ,  $\frac{2}{4}$ ,  $\frac{2}{8}$ . The motions of the hand are *down, up* ; accented on the first part.

##### TRIPLE MEASURE

has three beats ; the upper figure is  $\frac{3}{4}$ . The varieties are  $\frac{3}{4}$ ,  $\frac{3}{8}$ . The motions of the hand are *down, left, up* ; accented on the first part.

##### QUADRUPLE MEASURE.

has four beats ; the upper figure is  $\frac{4}{4}$ . The varieties are  $\frac{4}{4}$ ,  $\frac{4}{8}$ . The motions of the hand are *down, left, right, up* ; accented on the first and third parts.

##### SEXTUPLE MEASURE.\*

has six beats ; the upper figure is  $\frac{6}{8}$ . The varieties are  $\frac{6}{8}$ ,  $\frac{6}{4}$ ,  $\frac{6}{2}$ . The motions of the hand are *down, down, left, right, up, up* ; accented on the first and fourth parts.

\* When the movement in Sextuple Measure is rapid, it may be beaten the same as Double Measure. When it is slow, beating may also be performed with three motions repeated, when this method is preferred.

#### ADDED OR LEGER LINES.

§ 8. When it is required to write music lower or higher than can be represented by the five lines of the staff, short lines are added called Leger or Added lines. The additional spaces thus formed are reckoned as in the staff.

Question on the above, and examine staves with leger lines.

§ 9. The degrees of the staff are numbered from the lowest upward, the lowest being reckoned as the *first* line.

Exercise on the lines and spaces—numbering them—also practice the melody of plain tunes with easy skips, in *any key*, such as Gosner, 98 ; Keokuk, 105 ; Harvey's Chant, 108 ; first reading them by syllables or numerals.

## LESSON V.

MELODIC CHARACTERS RESUMED.  
LETTERS.

§ 1. The different sounds of the scale are named after the first seven letters of the alphabet; viz.:

A,      B,      C,      D,      E,      F,      G.

The teacher will explain, and sing or play the sounds of the above letters, naming them, and especially drawing the attention of the pupils to the fact that musical sounds are distinguished from each other as to given pitch, or difference of pitch, *by the letters*, not by syllables or numerals,

§ 2. The scale may begin on either one of the letters. It is customary, however, to commence on the letter C.

NOTE.—The reason for commencing on C may be explained at some future period.

## STAVES AND CLEFFS.

§ 3. There are two kinds of staves in general use; one called the TREBLE STAFF, the other the BASE STAFF.

§ 4. The different staves are distinguished by characters placed at their beginning, called CLEFFS.

Staff with the Treble Clef, called the *Treble Staff*.

Staff with the Base Clef, called the *Base Staff*.

§ 5. Each clef is intended to designate a certain letter of the above series.

§ 6. The Treble clef represents the letter G *on the second line* of the staff, counting from the lowest upward.

§·7. The Base clef represents the letter F *on the fourth line* of the staff, counting from the lowest upward.

QUESTION on the foregoing

§ 8. When more degrees are required than are represented by the staff, ADDED LINES and SPACES above or below are written.

§ 9. Every degree (line and space) of the staff is named after one of the seven letters.

-C- First added line below. D First space below,

First added line above. C. First space above. B.

First added line below. G. First space below. F.

NOTE.—The teacher should be particular to impress upon the minds of the pupils, that the letters representing the given pitch of sounds are *permanent*.

§ 10. Notes placed upon either degree of the staff receive their (melodic) name from the letter of the line or space on which they are placed. Thus, a note on the first line of the treble staff is called E, on the first space F, &c.

NOTE.—Practice reading tunes and exercises by the letters.

LETTERS OF THE TREBLE STAFF.

§ 11. When two or more parts are performed together, a character called a BRACE is employed to unite the staves.

## LESSON VI.

## MUSIC IN PARTS.

§ 1. A PART in music is represented to the eye by a single sett or number of notes on any staff. The treble, for example, is one PART, the base is another PART, &c.

§ 2. Music is composed of one, two, three, four, and often more parts. When in two or more parts, it is said to be in Harmony, and is so composed that the different parts agree, or *harmonize* together.

§ 3. Music for choirs is usually in four parts which are arranged as follows:

*First Treble* or *Soprano*.—Highest part; for female voices.

*Second Treble* or *Soprano*.—Lowest part; for female voices.

*Tenor*.—Highest part; for men's voices.

*Base*.—Lowest part; for men's voices.

§ 4. Boys, before their voices change, usually sing Alto. Misses should also sing this part.

§ 5. The parts in this book, and in most books of church music in this country, are arranged for the singers in the following order:

Upper Staff, TENOR, gentlemen who can sing high.

Next below, ALTO, ladies who can sing low.

Next below, SOPRANO, ladies who can sing high.

Lowest, BASE, gentlemen who can sing low.

§ 6. While learning to read music in classes it is sometimes advantageous to change parts occasionally, and frequently all may sing on one

part; but in church, changing of parts should not be practiced *by any* unless at the request of the leader.

§ 7. Every singer should sing the part best adapted to his or her voice, and what that part is the teacher or leader will soon be able to decide. See classification of voices.

### THE COMMON CHORD.

Sing together the numerals 1, 3, 5, 8.

§ 8. The combination of the sounds 1, 3, 5, 8, is the first, simplest, and most pleasing form of harmony. It is termed the Common Chord. There are many other kinds of chords which the student of harmony must learn, but this (the Common chord) should be familiar to every singer.

### EXERCISES IN TWO PARTS.

#### 51. Do (One) on C. SOUND THE HORN.

#### 53. Tune in four parts.

Give out Card No. 4, preparatory to next lesson. Subject: INTERVALS.

NOTE.—The small notes in first measure are for the second stanza. Sing eighths instead of quarters wherever the syllables require it.

Practice the skips 1, 3, 5, 8, 6.

### BELLS ARE RINGING.

#### 52. Do (One) on C. Two parts—Treble and Base.

## LESSON VII.

## INTERVALS.

§ 1. The scale may be compared to a flight of steps or ladder. It is frequently represented by a ladder with the rounds or steps at unequal distances apart.

§ 2. The steps or distances observable in the passage of the voice up and down the scale or ladder, are called INTERVALS.

§ 3. An INTERVAL is the distance from any sound of the scale to the next above or below—the difference of pitch between any two sounds.

§ 4. There are two kinds of Intervals in the scale—large and small.

§ 5. The larger intervals are called TONES or STEPS, the smaller, HALF TONES or SMALL STEPS.\*

## THE INTERVALS OF THE SCALE.

§ 6. The intervals, as they succeed each other in the scale, are in the following order, viz.:

From One to Two,	LARGE	Tone or Step,	From Five to Six,	LARGE	Tone or Step,
" Two to Three	LARGE	Tone or Step,	" Six to Seven,	LARGE	Tone or Step,
" Three to Four,	SMALL	Half Tone, or	" Seven to Eight,	SMALL	Half tone, or
Small step.			Small step.		
" Four to Five,	LARGE	Tone or Step,			

§ 6. The intervals of the letters are as follows, viz.:

From C to D,	LARGE	Tone or Step,	From G to A,	LARGE	Tone or Step,
" D to E,	LARGE	Tone or Step,	" A to B,	LARGE	Tone or Step,
" E to F,	SMALL	Half Tone or small	" B to C,	SMALL	Half Tone or Small
Step,			Step.		
" F to G,	LARGE	Tone or Step,			

§ 7. If the pupils observe carefully where the small intervals are situated, they will not be liable to make mistakes, as they will then have only to remember that all the rest are large.

\* Good teachers differ as to the proper use or application of these and other terms. Such differences, however, we do not consider of much importance. They seem to us the "mint and cummin," in the frequent discussion of which the "weightier matters of the law" are often neglected. So long as pupils make themselves familiar with the generally received nomenclature of the musical art, and understand its application, we should be satisfied. We have given above both terms; teachers will adopt whichever they prefer.

NOTE No. 1. Practise in key of G, D or A, &c., plain tunes, or any of the following exercises, making no allusion to signatures other than to say now *One*, [Do], is on D, G, etc.

NOTE No. 2. Desirous of continuing the plan of progressiveness, adopted as the basis of these Elements, interspersing the practical with the theoretical, we think it better to let the class practise in different keys, before the subject of transposition or signatures is explained. The lesson of Intervals is a very important one,—indispensable, if they would understand transposition. Let them, therefore, learn this thoroughly. and sing on, or, if the cards are used, they having learned this at home, will have all the time in the class for singing. The card should always be given out at the close of a lesson; the subject of it being taken up at the next lesson.

LESSON VIII.

DYNAMICS.

(POWER OF SOUNDS).

§ 1. To sing in good taste, our sounds must be varied with respect to their POWER or stress, sometimes singing louder, and sometimes softer, accord-ing to the character of the song or sentiment. For this purpose Dynam-ic marks of expression are used.

DYNAMIC CHARACTERS EXPLAINED.

Piano	marked	<i>p</i>	Soft.
Pianissimo	marked	<i>pp</i>	Very soft.
Forte	marked	<i>f</i>	Loud.
Fortissimo	marked	<i>ff</i>	Very loud.

EXERCISES IN DOTTED NOTES.  
DOTTED QUARTERS AND EIGHTHS.

§ 2. Make one beat and a half to each dotted quarter, singing the eighth while the hand remains stationary; or, if easier at first, beat a few measures in advance, describing the beats thus: "Down, left, (*and*) right, up;" speaking the word "and" as quickly as the note itself should be sung. Make a careful distinction between the dotted and plain notes.

## TRANSPOSITION.

3. Transposition is removing the scale from one place or position on the staff to another, either higher or lower.

4. The scale takes its name from the letter on which it commences, for example a scale commencing on C is said to be in the key of C, and termed the *Scale of C*.

5. The scale may commence on any letter of the musical alphabet.

6. In order to transpose or remove the scale to any position (any key) things are necessary to be borne in mind, viz.:

That the intervals of the scale must be the same as represented in Lesson VII, subject: INTERVALS, page 14, § 6.

That the sounds represented by *letters* are permanent—they *never change*; the sound of C, for instance, is the same sound in one scale as in another. In different scales it simply bears a different relation to the other sounds; in one scale it may be the first or key note, in another scale it may be the third, in another the fourth, &c., but it is ever the same sound, C.

7. By examining and comparing the intervals of the scale with those the letters, it will be seen that when the scale commences on C, its intervals correspond with the intervals of the letters.

## ILLUSTRATION No. 1. Scale on C, Intervals right.

Do,	re,	mi,	fa,	sol,	la,	si,	do.

8. If the scale commences on *any other letter* than C, these intervals *do not agree*.

§ 9. In the above it will be perceived that the half steps occur between 2 and 3, and 6 and 7, (these now being E, F and B, C), instead of between 3 and 4, and 7 and 8, as they should. Here is a discrepancy for which a remedy must be provided. The intervals of the letters *must be made* to correspond with those of the scale, wherever we choose to place it. But before providing for the discrepancy here alluded to, let us see that the discrepancy itself is manifest.

NOTE.—The Teacher cannot be too particular about this, if he would have his pupils thoroughly understand the subject.

## ILLUSTRATION No. 3. Scale on E, Intervals wrong.

E	F	G	A	B	C	D	E.
1	2	3	4	5	6	7	8.

NOTE. Pupils examine the above and point out the wrong intervals.

PROCESS. From 1 to 2 there must be a large interval—step; but from E to F is but a half step—*wrong*. From three to four must be a half step, but from G to A is a step—*wrong*. From 7 to 8 must be a half step, but from D to E is a step—*wrong*.

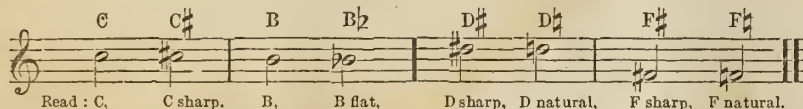

§ 10. It will be observed that in the above there are small intervals where there *should be* large, and *vice versa*. It will be seen also, we think, by all who have examined the subject, that we now need a sign or character, which shall represent a small interval (half step), and which might, by dividing the steps, introduce a sound a half tone (half step) higher or lower than the above letters represent. This necessity is met by the

## SIGNS OF ELEVATION AND DEPRESSION

§ 11. A sign is used in music which, when placed before a note, indicates a sound a *half tone* (half step) *higher* than the letter upon which the note is written would otherwise represent. This is called a **SHARP**, .

§ 12. A sign is used in music which, when placed before a note, indicates a sound a *half tone* (half step) *lower* than the letter upon which the note is written would otherwise represent. This is called a **FLAT**, .

§ 13. A sign is used in music which will counteract the influence of either of the above. This is called a **NATURAL**, .

81. Example of the  $\sharp$ ,  $\flat$ , and  $\natural$ .

Read : C, C sharp. B, B flat, D sharp, D natural, F sharp, F natural.

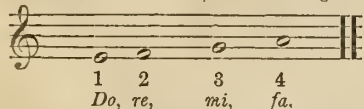

§ 14. By the aid of these signs any change of interval can be made, and all the faults above alluded to, corrected.

PROCESS.—Scale on E.—E to F half step. E is now ONE, F is TWO. *Wrong*, because from ONE to TWO a step is required. Insert  $\sharp$  before F and the sound is no longer that of F, but F $\sharp$  (F sharp) a sound a *half step higher* than F. Now from E to F $\sharp$  (ONE to TWO) is a *step—right*.

Again—from TWO to THREE must be a step, but from F $\sharp$  (which was taken in place of F) to G is but a half step. Question: "What shall be done?" Answer, Insert  $\flat$  before G, introducing the sound G $\flat$  a *half step higher* than G. From THREE to FOUR a half step is required, and from G $\flat$  (3) to A (4) is a half step—*right*.

NOTE.—Let the pupils complete the transposition or construction of this scale, according to the principles given above, and transpose also into G, D, A, F, &c. Music slates or music paper will be convenient for this purpose, while some will be willing to go to the black board (which should always be on hand for illustration), and transpose the scale before the class. It will be well to let this study follow some half hour's close practice in singing.

## CHROMATIC SECTION.

## THE CHROMATIC SCALE AND EXERCISES, TO BE INTRODUCED WHENEVER NEEDED.

§ 1. All the intervals of the scale that are a whole tone (step) distant from each other may be divided into half tones, (small steps), forming an entire scale of small intervals, (half tones), called the Chromatic Scale.\*

NOTE.—Let pupils recall the intervals of the scale, and then name such only as must be divided in order to form the Chromatic Scale.

§ 2. The division of the large intervals, (tones), is represented by the sharp or flat. See illustration 81, page 20.

§ 3. All the tones (steps) of the scale being thus divided, either by means of the sharp or flat, we shall have for our Chromatic Scale thirteen intervals, of a half tone (small step) each.

§ 4. The scale heretofore exclusively used, consisting of five tones, or steps, and two half tones, or small steps, is called the DIATONIC SCALE.†

NOTE.—The Chromatic Scale, being more difficult to sing than the Diatonic, and not being much required in plain music, it is not usually studied or practised until pupils are well versed in the Diatonic Scale, and able to read with considerable facility. The editors of this work, after much experience, would urgently recommend the introduction of either a part or the whole of the Chromatic Scale, as an exercise for the voice and ear, just as soon as pupils can read plain music in the Diatonic Scale. We would not attempt too much of this kind of study at any one time. One or two of the following chromatic exercises at each lesson will generally be found sufficient, and, by judicious management, pupils will not become wearied. The easiest, and perhaps the most useful, is the sharp fourth. Next in order may follow the flat seventh; then the sharp second, flat third, &c., then, from sharp one on, gradually introducing the whole Chromatic Scale. If you have an instrument play the chromatic scale often, that they may become accustomed to its progression.

§ 5. Sharps, flats and naturals, introduced to represent different portions of the Chromatic Scale, do not usually belong to the *signature* of the tune, but are found interspersed through the different measures. They are termed *accidentals* (for want of a better name), and their influence extends throughout the measure only in which they are found, except where the note that has been changed is continued or repeated on the first part of the next measure. In that case, the note or notes thus repeated in the succeeding measure, are affected by the accidental. See "The Linden Tree," page 24.

\* CHROMATIC. From a Greek word, signifying *color*, the intermediate, or chromatic tones, having been formerly written with colored ink. The term may also have a figurative signification, as chromatics in music, may be regarded as analogous to coloring in painting.

† DIATONIC. From two Greek words, signifying *through the tones* or *from tone to tone*.

NOTE.—In singing the Chromatic Scale, or exercises, with syllables, use the vowel sound of *e* long, as in *mele*, for the sharps, (Di pronounced *Dee*, Ri *Kee*), and a long, as in *fate*, for the flats, (So pronounced *Say* *Le Lay*, &c.). By observing this rule we are enabled to preserve uniformity in printing the syllables.

## DIATONIC INTERVALS.

§ 1. Intervals are always reckoned from the lower tone upwards, unless otherwise expressed.

§ 2. Two tones being the same pitch, are said to be in UNISON.

## MAJOR AND MINOR INTERVALS.\*

§ 3. *Seconds.*

1. A second consisting of a *half-step* is a MINOR SECOND.
2. A second consisting of a *step*, is a MAJOR SECOND.

§ 4. *Thirds.*

2. A third consisting of *two steps*, is MAJOR.

2. A fourth consisting of *three steps*, is a SHARP FOURTH.

§ 6. *Fifths.*

1. A Fifth consisting of *two steps* and *two half-steps*, is a FLAT FIFTH
2. A fifth consisting of *three steps* and a *half-step*, is a PERFECT FIFTH.

§ 7. *Sixths.*

1. A sixth consisting of *three steps* and *two half-steps*, is MINOR.
2. A sixth consisting of *four steps* and a *half-step*, is MAJOR.

§ 8. *Sevenths.*

1. A seventh consisting of *four steps* and *two half-steps*, is a FLAT SEVENTH.
2. A seventh consisting of *five steps* and *one half-step*, is a SHARP SEVENTH.

§ 9. *Octave.* An Octave consists of *five steps* and *two half steps*.

NOTE.—In addition to the intervals already mentioned, there are others arising out of the chromatic scale, but as they properly belong to the study of harmony, further notice of them is omitted in this work.

## MINOR SECTION.

TO BE INTRODUCED WHEREVER REQUIRED.

## MINOR SCALE.

§ 1. In addition to the Diatonic Scale as explained in Lesson VI, there is another diatonic scale, differing from that in respect to its intervals, called the MINOR SCALE. The former scale is called MAJOR.

§ 2. There are two forms of the MINOR SCALE in use. We distinguish them from each other by the terms FIRST FORM and SECOND FORM of the Minor Scale.

§ 3. In both forms of the Minor Scale the intervals differ from those of the Major.

§ 4. The chief difference (to the ear) between the Major and the Minor Scale is in the THIRD; that of the Major being composed of two steps (two tones), while that of the Minor is only a step and half (tone and half). See Minor Scales below.

NOTE.—Those who have made themselves familiar with the intervals of the Major Scale will readily understand the difference between that and the Minor now to be presented.

§ 5. In the first form of the Minor Scale the intervals are not the same in descending as in ascending.

117.

## MINOR SCALE.—FIRST FORM.

NOTE.—Let pupils examine the above by the intervals of letters, and then give the form or order of intervals, ascending and descending.

118.

## MINOR SCALE.—SECOND FORM.

NOTE.—Pupils examine and name the order of intervals in second form of the Minor scale. Question: Wherein do the two minor scales differ from each other? What is the order of intervals in the first form? Second form? Wherein do the Minor Scales differ from the Major? Examine and compare.

§ 6. The Minor Scale commences on the numeral 6, syllable la, of the Major—6 (la), of the Major is taken as 1 of the Minor but the syllable (la) is retained. See scales above

§ When the Major and Minor Scales have the same signature, they are said to be related. Thus the key of C major is the relative major to A minor; and the key of A minor is the relative minor to C major.

§ 8. The relative minor to any major key is found a sixth above it, or is based upon its sixth; and the relative major to any minor key is found a third above it, or is based upon its third.\*

§ 9. The letters and syllables correspond in the major and its relative minor. Thus, the syllable *do*, is applied to C in both cases, although it is *one* in the major, and *three* in the minor scale, &c.

1. Je-sus, where'er thy peo-ple meet, There they be-hold thy mer-cy seat; Where'er they seek thee, thou art found, And eve-ry place is hallowed ground.

"Thou art gone to the grave."

W. B. B.

1. Thou art gone to the grave; but we will not deplore thee, Though sorrows and darkness encompass the tomb; The Savior has passed through its portals before thee, And the lamp of his love is thy guide through the gloom.

2. Thou art gone to the grave; we no longer behold thee, Nor tread the rough paths of the world by thy side; But the wide arms of mercy are spread to enfold thee, And sinners may hope, since the [Savior hath died.

"When thro' the torn sail."

1st TIME. 2d TIME.

1. When thro' the torn sail the wild tempest is streaming, When o'er the dark wave the red lightning is gleaming, Nor hope lends a ray, the poor seamen to cherish, We fly to our Maker—"Save, [Lord, or we perish." 1st TIME. 2d TIME.

2. O Jesus, once rocked on the breast of the billow, Aroused by the shriek of despair from thy pillow, Now seated in glory, the mariner cherish, Who cries in his anguish, "Save, Lord, or we perish."

# HYMN. "Hail to the brightness." 11's & 10's.

L. MASON.

1. Hail to the brightness of Zion's glad morning! Joy to the lands that in darkness have lain; Hushed be the accents of sorrow and mourning, Zi-on in triumph begins her mild reign.

2. Lo! in the desert, rich flowers are springing, Streams ever copious are gliding a-long; Loud from the mountain-top echoes are ringing, Wastes rise in verdure, and mingle in song.

**CORRIN.** "The Lord is great." 12's & 8's. Peculiar.

1. The Lord is great; ye hosts of heaven, adore him, And he who tread this earth-ly ball; In ho-ly songs rejoice alond before him; And shont his praise who made you all.

2. The Lord is great; his majesty how glo-rious, Resound his praise from shore to shore; O'er sin, and death, and hell, now made victorious, He rules and reigns for-ev-er-more.

3. The Lord is great; his mercy how abounding! Ye an-gels, strike your gold-en chords; O, praise our God, with voice and harp resounding The King of kings and Lord of lords.

**RICHFORD.** "Give glory to God." 11's.

1. Give glory to God in the highest; give praise, Ye noble! ye mighty! with joyful accord; All-wise are his counsels, all-perfect his ways; In the beanty of holiness worship the Lord.

2. The voice of the Lord on the ocean is known, The God of e-ter-ni-ty thunders abroad; The voice of the Lord, from the depth of his throne, Is terror and power;—all nature is awed.

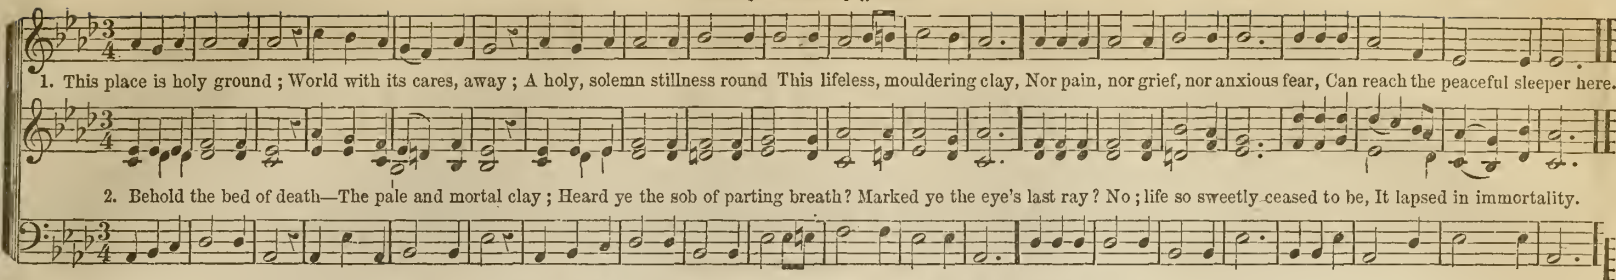

**REESE.** "Do this, and remember the blood." 11's.

1. "Do this," and remember the blood that was shed, Ere Calvary's Victim to slaughter was led, When, sad and forsaken, the garden a-lone Gave ear to his sorrow, and echoed his moan.

3. Remember the conflict with insult and scorn, The robe of derision, the chaplet of thorn, The sin-cleansing fountain that streamed from his side, When, "Father, forgive them," he uttered, and died.

"This place is holy ground."

W. B. B.

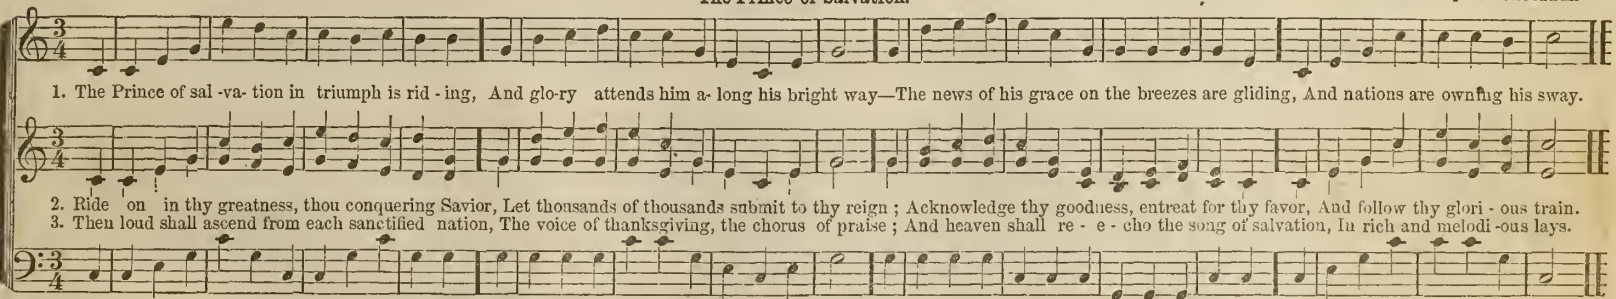

1. This place is holy ground ; World with its cares, away ; A holy, solemn stillness round This lifeless, mouldering clay, Nor pain, nor grief, nor anxious fear, Can reach the peaceful sleeper here.

2. Behold the bed of death—The pale and mortal clay ; Heard ye the sob of parting breath ? Marked ye the eye's last ray ? No ; life so sweetly ceased to be, It lapsed in immortality.

As many will prefer it in the form of a tune or set melody to the chant, we have composed the music above, with the single purpose of aiding in giving vocal expression to the prayer. The music is so simple, that a child can perform it with ease; while to the devout adult worshipper, it will not, we believe, be found devoid of interest. ## LOOK ALOFT.\*

W. H. B. Bloomfield, April 7th, 1858.

1. In the tempest of life, when the wave and the gale Are around and above, if thy footing should fail, If thine eye should grow dim, and thy caution depart, Look aloft, look aloft, look a-  
 loft.

2. If the friend who embraced in prosperity's glow, With a smile for each joy and a tear for each woe, Should betray thee, when sorrows like clouds are arrayed, Look aloft, look aloft, look a-  
 loft.

loft, look aloft, Look a-loft to the friendship which never shall fade, Look aloft to the friendship which never shall fade.

loft, look aloft, Look a-loft and be firm, and confiding of heart, Look a-loft and be firm, and confiding of heart.

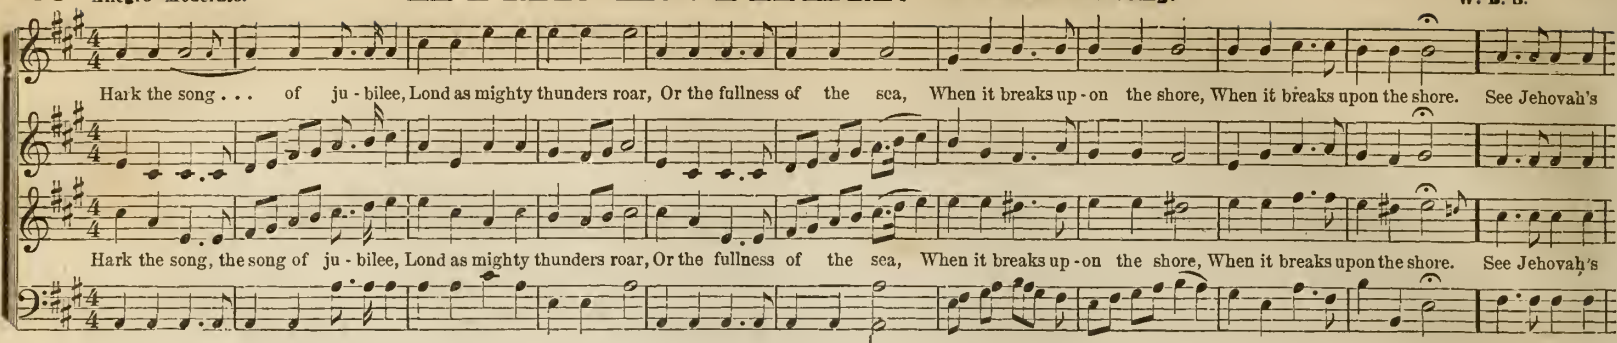

3. Should the visions which hope spreads in light to thine eye, Like the tints of the rainbow be swifter to fly, Then turn, and through tears of repentant regret, Look aloft to the Sun that is never to set.

4. Should they who are dearest, the son of thy heart, The wife of thy bosom—in sorrow and dust; Look aloft from the darkness and dust of the tomb, To the soil where affection is ever in bloom.

5. And, oh! when death comes, in his terrors to cast His fears on the future, his pall on the past, In the moment of darkness, with hope in thy heart, And a smile in thine eye, look aloft and depart.

1. Let ev'ry heart rejoice and sing; Let choral anthems rise; Ye rev'rend men and children, bring To God your sacrifice; For he is good; the Lord is good, And kind are all his ways;

2. He bids the sun to rise and set; In heav'n his power is known; And earth, subdued to him shall yet Bow low before his throne; For he is good; the Lord is good, And kind are all his ways:

With songs and honors sounding loud, The Lord Jehovah praise, While the rocks and the rills, While the vales and the hills, A glorious anthem raise: Let each prolong the grateful song, And [the God of our fathers praise.]

## RAZON. "Go ye to all lands."

Missionary song. Words by W. O. BOURNE.

1. { Go ye to the land of the cedar and vine, Where the angels came down in their heavenly train, Where the garden was filled with the presence divine, And the Savior has trodden the valley and plain; } For a star hath arisen, to shine through the gloom, And a life breaketh forth, from the verge of the tomb.

2. { Go ye to the land of the jewel and gem, Go ye to the stores of the richest of pearl; The light of salvation is given to them,— There early the banner of glory unfurl, } Oh, go to the isles in the ocean's wide breast, And tell them of Jesus, and heaven, and rest.

3. { Go ye to the land of the olive, and teach Of a peace, which the world is not able to give; To the flowery land, where the message shall reach The millions, that wait in the Savior to live; } Go ye to the land of the ruby and gold, And bid them the crown of redemption behold.

TENOR AND TREBLE DOUBLED.

For a star hath arisen, to shine through the gloom, And a life breaketh forth, from the verge of the tomb.

4. Go ye to the land where the Ethiop roams,  
And stretch his long-fettered hands unto God;  
Oh, tell them of heaven, and point to the homes  
Where never the foot of oppression hath trod;  
And the desert shall bloom, and the barren shall sing,  
And the wilderness forth into beauty shall spring.
5. Go forth, Mighty Word! till all nations shall hear!  
Speak thou to the straying in accents of peace!  
Till the millions shall see the bright morning appear,  
And the kingdom of Christ shall have endless increase,  
And the song shall breathe forth in an Anthem divine.  
The power. O Jesus! and the glory be thine!

"Thy will be done."

- "Thy will be | done!" || In devious way  
The hurrying stream of | life may | run; ||  
Yet still our grateful hearts shall say, |  
"Thy will be | done."

- "Thy will be | done!" || If o'er us shine  
A gladd'ning and a | prosp'rous | sun, ||

This prayer will make it more divine— |  
"Thy will be done."

- "Thy will be done!" || Though shrouded o'er  
Our | path with | gloom, || one comfort—one  
Is ours :—to breathe, while we adore,  
"Thy will be done."
